### **DETAILED ACTION**

Claims 63, 67-70, 72-84 and 92-103 are pending in this application.

#### ***Action Summary***

1. The rejection of claims 63, 75 and 84 under 35 U.S.C. 102(b) as being anticipated by Peschka et al. is hereby withdrawn in view of applicants response.

#### ***Statement of Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious a method of forming particles comprising accelerating a first stream comprising a first liquid, vibrating the first stream to form particles and solidifying the particles; wherein the accelerating comprises contacting the first stream with a second stream. The closest prior art reference of Peschka et al. do not teach accelerating the liquid stream with a second stream. The second liquid stream as claimed by applicant makes the first stream accelerate faster, thereby making the stream thinner to allow for a more uniformed particle size.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. Claims 63, 67-70, 72-84 and 92-103 are allowed.
